Professional background and how it will help in this role.

I am an Executive at a Financial Institution responsible for setting strategy and drive execution, with 18 years' experience in the industry. I lead a team of Managers and Specialists to provide customer and business value. To deliver business value, I collaborate with impacted stakeholders internally as well as externally. I have held various leadership positions outside my career contributing to community and education upliftment. My passion for education will allow me to add value to this role. My ability to set strategy, execute on it and collaborate with stakeholders will add value to the Convocation Executive Committee and goals set to be achieved by the collective.
